Editor

Journal of Computational and Graphical Statistics

Dear Dr McCormick,

We have undertaken major revision on our manuscript titled, "A new tidy data structure to support exploration and modeling of temporal data," based on reviewers' comments.

We have rewritten Section 3 "Contextual semantics" and Section 4 "Temporal data pipelines". Now Section 3 gives a definition of tsibble in relation to tidy data. Section 4 describes a big picture about each module with the focus of temporal data instead of time series before.

A detailed response letter to reviewers has been provided.

We believe that this manuscript has been significantly improved, that is a good fit for the Journal of Computational and Graphical Statistics.

Sincerely

A handwritten signature in black ink that reads "Earo Wang".
